Step 2: Check information & Confirm transaction

			
Check information & press Confirm	Input password/ Verify with fingerprint	Press Confirm	Transaction successful

Note:

- When transferring money from e-wallets, please check the transaction information carefully before confirming the transaction and should transfer money according to the identified account number. Because there will not be enough information about the sender and the recipient to record and refund the transaction when there is an error.
- Transfer fee/limit: According to each e-wallet's regulations.
